

THE VI SERIES

Triangle's "VI" Series Belt Drive Industrial Exhaust Fans are designed to meet the exhaust airflow needs of factories, warehouses, gymnasiums, greenhouses, etc. "VI" Series Belt Drive Industrial Exhaust Fans come standard with a polyester powder coated venturi to improve airflow and protect against corrosion as well as a heavy gauge galvanized housing, also for corrosion resistance. Also, open drip proof and totally enclosed fan cooled "VI" models up to 1 ½ HP come equipped with Triangle's exclusive "X-Wing" Belt Tensioner which reduces maintenance and extends belt and motor life.

Options:

- Two speed single phase motors up to 1/2hp, 115v only

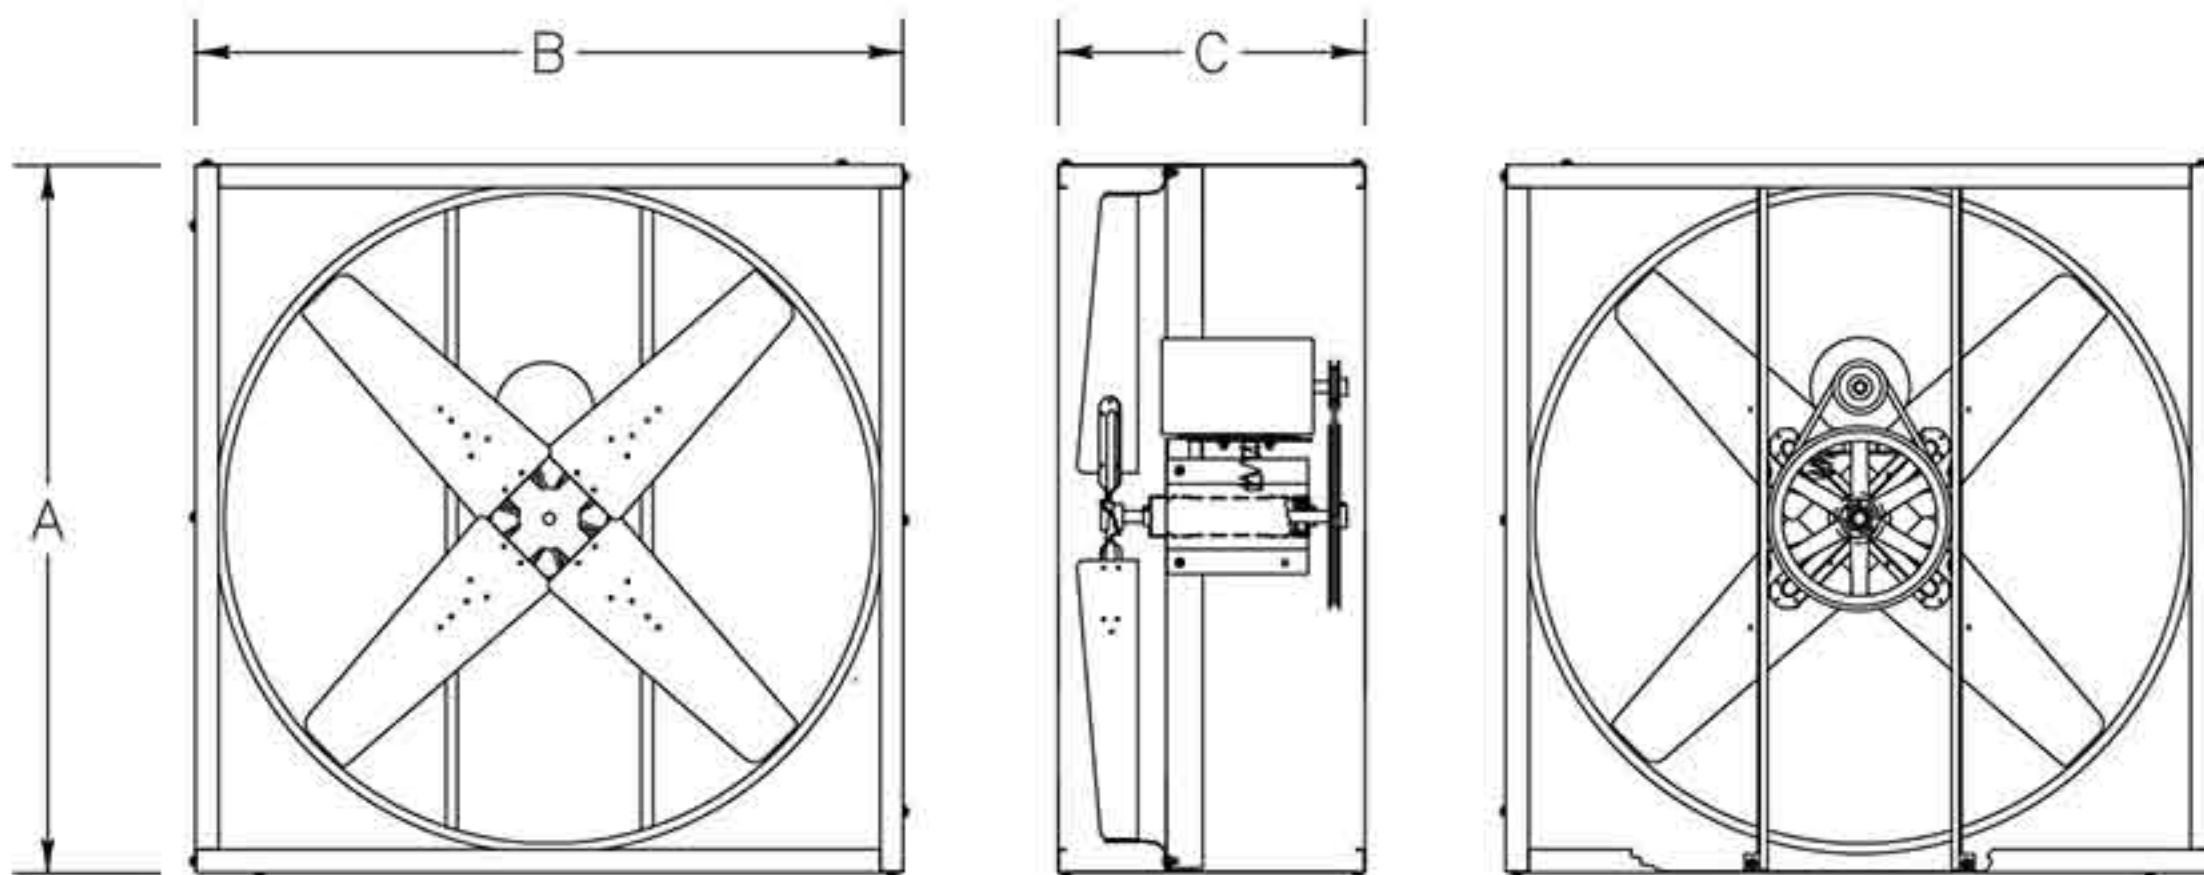

Features:

- Bronze Powder Coated Rolled Inlet Venturi for Efficient Airflow
- Rugged Heavy Gauge Galvanized Housing
- Available in sizes from 24" to 60" Blade Diameter
- Available with ODP, TE and HL motors
- Belt Drive

HAZARDOUS LOCATION MODELS

Hazardous location models are made to order and are not returnable. They come equipped with:

- Motor: Single Speed, Div. I, Class I, Group D and Class II, Groups F & G
- Aluminum Blade
- Stationary Motor Mount
- No wiring or switch

CAUTION-WARNING

Although this product is supplied with an explosion proof motor, and blades with spark resistant aluminum paddles, it is not intended to convey the suitability of the overall finished product in a hazardous atmosphere, but only that the product has been supplied with certain components for this purpose. Application and wiring must be in accordance with local, state and national codes and performed by a qualified electrician. Fans not appropriate for use where paint residue can accumulate on motor or blade.

Performance shown is for installation type A: free inlet and free outlet and does not include the effects of accessories.
